DESIGN STRATEGIES

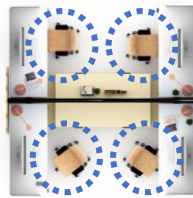

reconfigure and modify

CURRENT

Have you thought about how to **transform** your **workspace** of Yesterday, Today & Tomorrow?

RETROFIT

DESIGN CONSIDERATIONS

Minimum Distance

Minimum 6ft distancing. Reduce occupancy by removing desks, tables, and seating

Re-orient Furniture

Reduce face to face orientation; turn workstations to prevent working directly across or behind one another

Add Space Division

Screens, storage elements, or plants

Height Helps

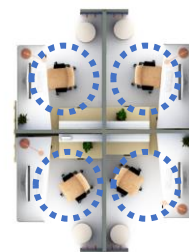

Boundaries on all exposed sides when 6ft distance cannot be achieved

Aisles

Create one-way traffic pattern in hallways and clockwise in a meeting room
